Profile

I am a developer with a deep love for systems, beauty, and truth. I create digital spaces that are soft, accessible, and structurally sound. My projects blend technology with ethics — from SAP systems to symbolic websites. Self-taught, highly sensitive, creatively chaotic yet grounded, I'm always searching for a better world — even in code.

Professional Experience

Since 2020 – Freelance SAP Developer

- UI5/Fiori apps, workflow customization, form design
- System optimization using CMOD, SE19, ABAP reporting

Since 2019 – Freelance Web & App Developer

- JavaScript, PHP, HTML/CSS, MySQL
- UI prototypes, mobile app (Java SDK), personal web projects

Since 2024 – Livestreamer & Creator (TikTok, Twitch)

- Live shows, community building, creative soft-tech content

Visionary Projects & Creative Systems

- Starlight Flow: Interactive website as portfolio & healing space
- Adaptive Flow Method: Neurodivergent-friendly fitness & food system
- Reverse Engineering: DRM & memory hacking challenges
- Game Prototyping: Coming soon – autistic-soft & system-driven gameplay

Technical Skills

SAP Development: UI5, Fiori, ABAP, Smart Forms, CMOD, SE19

Web Development: JavaScript, PHP, HTML, CSS, MySQL

App Development: Java SDK, Android prototyping

Reverse Engineering: Android memory, Denuvo analysis

Languages: Arabic (8 dialects, native), French (native), German, English, some Japanese

Personal Qualities

- Deeply structured, networked thinking
- Sensory-aware, honest, and empathetic
- Creatively chaotic, yet highly analytical
- Remote-compatible, clear communicator with thoughtful language
- Lives and breathes inclusion, ethics, and accessibility in her work
