Profil

I am a developer with a deep love for systems, aesthetics, and truth. I create digital spaces that are soft, accessible, and structured. My work merges technology with ethics — from SAP systems to symbolic web projects. Autodidact, highly sensitive, creatively chaotic, and analytical. Always searching for a better world — also in code.

Professional Experience

Since 2020 — Freelance SAP Developer

- Development of UI5/Fiori applications

- Workflow customization, form design

- System optimization with CMOD, SE19, ABAP reporting

Since 2019 — Freelance Web & App Developer
